Many people suffer from indigestion. Their action is sluggish and their food is not properly digested. This causes nausea or inconvenience. Trumbull writes: "I used Fowler's Cathartic Tablets for constipation with good results. I keep them in the house."

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 50c.

## JEWETT CITY

During a high wind last week a shingle or two blew off the Buckle's Mason house on the homestead in Lisbon, now owned by G. A. Ross. He brought one of the shingles to town to show its unusual state of preservation. The house was shingled in 1819, and never since. The shingles were of selected white pine. Mr. Ross' old records show that they came in a lot from Albany, N. Y., by schooner to Norwich, and were hauled to Lisbon with an ox team. They were out on with hand-made nails manufactured by the Jewett family in New York. The nails, when they came to the weather was a mixture of Princes' metallic paint, resin, and oil which dripped from the shingles in the mill. Underneath on the roof boards is a layer of birch bark. The house has never leaked nor has the snow blown in. The shingles which have done over a century of service are bright and firm today under their protective coating of paint and where overlapped show only a slight discoloring.

Supt. George Norman, of the Pacheco Sunday school, has arranged an excellent Rally Day service Sunday. The decorations were fruit in various colors and brightly tinted leaves. There was a large flag at the back of the platform at whose foot the trophies were laid. Before the regular service Bertha Montgomery read the story of the flag by Franklin Lane, and a rally exercise was given by the little children led by Raymond, Grace and Raymond Campbell. Frances Montgomery and Donald Roelle, speaking in unison. The pastor, Rev. J. P. Richardson, had an excellent harvest sermon and there was an anthem by the choir. Wilfred Hefman in Red Cross costume, carried a Red Cross banner; Alexander Tanner, an ex-

service man in uniform carried a sword. George Norman carried tools such as a carpenter's square and hammer; Chas. Campbell carried wheat. Then came the order of laws led by Mrs. Loleta Clement. **Free This week only**

Your dealer will give you a 10-Day Tube of Pepsodent if you present the coupon at the store named below.

Do this for your own sake—for your family's sake. Watch how your teeth improve. The delightful effects will very soon convince you what is best.

**Every application of Pepsodent brings five distinct results. And modern authorities consider all of them essential.**

**Now a world method**

In many countries Pepsodent is fast displacing old tooth cleaning methods. Dental authorities the world over endorse it. Careful people must adopt it sooner or later, for old methods are not right. With them, tooth troubles and discolorations have become almost universal. A change must come, and now is the time to start it.

**Prettier Teeth Next Week**

If you will now start this delightful test

This is to offer you a way to whiter teeth, cleaner, safer teeth. Such glistening teeth as millions now enjoy.

The dealer named below will give you the means. Get it and watch the effects. See your teeth grow prettier—note how clean they feel.

Dentists everywhere advise this method. Millions of homes have adopted it. Try it this week, for your own sake. Learn what it means to you.

**To remove the film**

Your teeth are coated with a dingy film. It is viscous—you can feel it with your tongue. It clings to teeth, enters crevices and stays. It clouds the teeth and causes most tooth troubles.

The ordinary tooth paste does not effectively combat it, so the tooth film has less much of it intact. As a result, teeth lose their luster. And, despite all brushing, tooth troubles have been constantly increasing.

The film is what discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Many other serious troubles are also traced to them.

**Science combats it**

Dental science has long sought ways to combat that film. The ways have now been found. Able authorities have amply proved them. Leading dentists everywhere advise their daily use.

The methods are embodied in a new-day tooth paste—Pepsodent. It combats the film wherever it may linger. In this way it brings surprising results which one quickly sees. Over 5,000 new people daily are trying out this modern method.

**Fights acids too**

Pepsodent brings three other effects which authorities now desire.

It multiplies the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise form acid.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause decay. Pepsin is also included.

**Quick changes come**

The user of Pepsodent quickly feels conspicuous changes. One cannot doubt the benefits it brings.

Perhaps men who smoke see the most conspicuous effects. Their films are tobacco-stained.

Women see them in prettier teeth, for most film-coats are dingy.

But Pepsodent is most important to the children. Their teeth seem most subject to these film and starch attacks. Dentists advise that children use Pepsodent from the time the first tooth appears.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the film-coats. See how teeth whiten as the film-coats disappear. Watch the other good effects, and read the reasons in the book we send.

This ten-day test will be a revelation. It may bring to your home a new era in teeth cleaning. And the benefits to you and yours may be life-long in extent. Cut out the coupon now. Present it today so you can start at once.
